UNIVERSITAT CENTRAL DE CATALUNYA

ANNUAL REPORT 2015-2016

INTRODUCTION

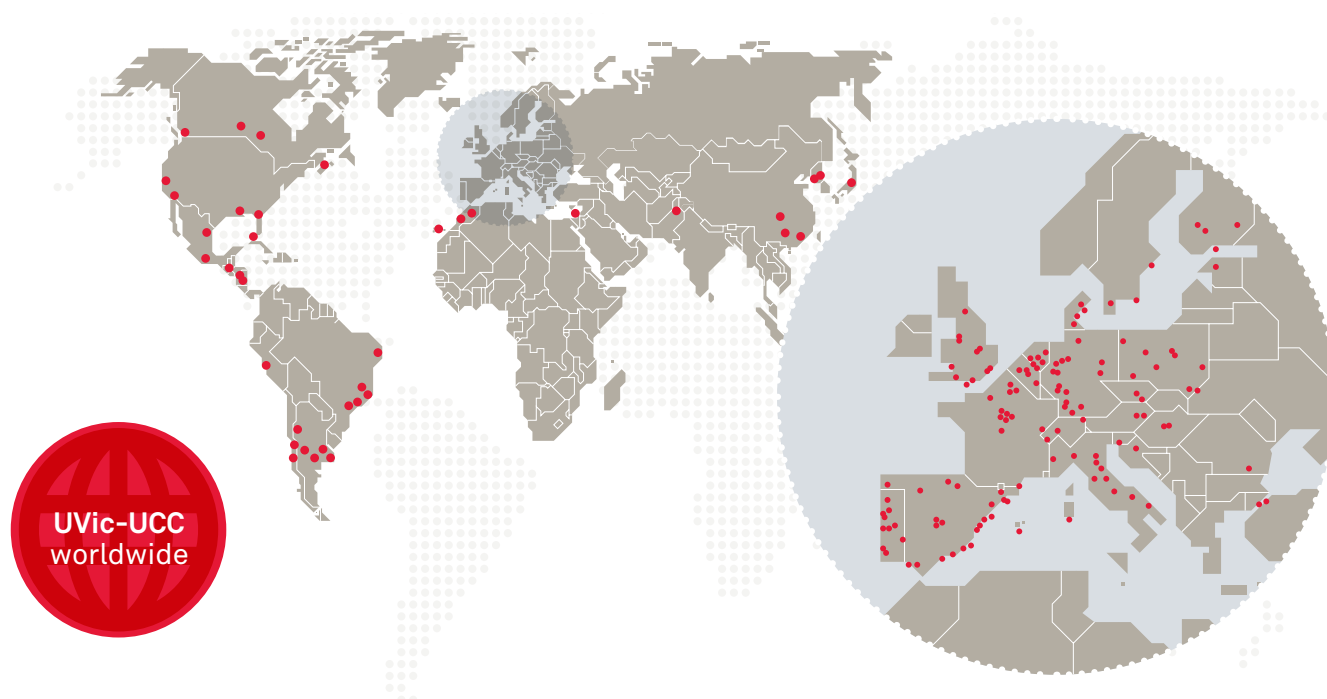

As I foresaw in last year's report, the 2015-2016 annual report is the first covering the whole of the University of Vic - Central University of Catalonia, incorporating data from the UVic campus, as before, together with data on the first year of UVic-UCC students enrolled at the UManresa campus, and combined data for both campuses (governing bodies, courses, teaching staff, grants, research, the international campus, and so on).

Noteworthy events this year have included the 25th anniversary of the Bages University Foundation and the launch of the vocational training course in Dental Prosthetics at UManresa; the agreement with Granollers City Council to open a UVic-UCC centre in the city, providing vocational training in Marketing and Advertising in the 2016-2017 academic year; the award of an honorary doctorate to Martin Dougiamas, creator of the Moodle learning platform; and, finally, the opening of the 242-room RUVic hall of residence in Vic.
