

# Gestor de Referències Bibliogràfiques

# Què és un gestor bibliogràfic?

És una aplicació informàtica per gestionar referències bibliogràfiques\* obtingudes a partir de fonts d'informació diverses. Tenen forma de base de dades personals, així doncs, cada usuari crea, actualitza i manté la seva base de dades bibliogràfica segons les seves necessitats.

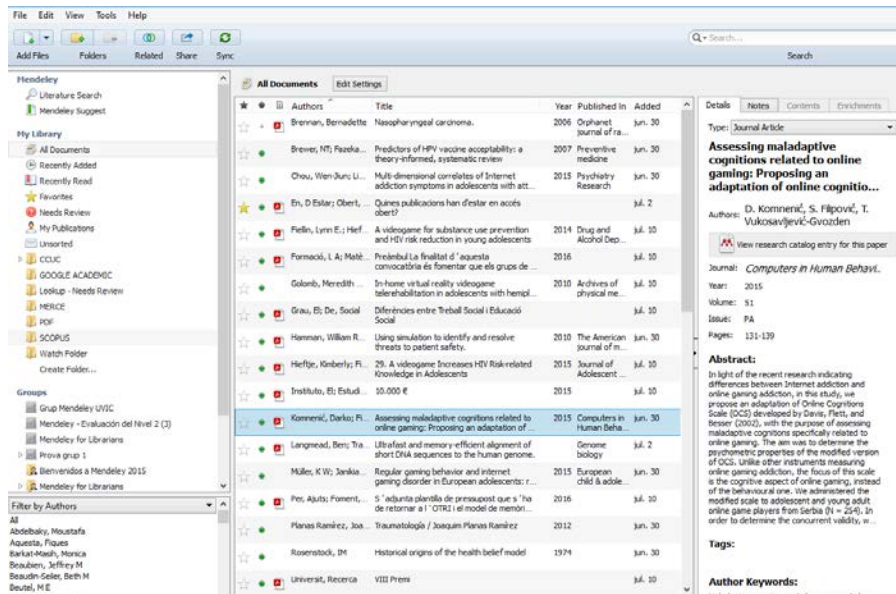

\* Referència bibliogràfica

Castells, M. & Himanen, P. (2002). *La sociedad de la información y el Estado de bienestar: el modelo finlandés*. (J. Alborés, Trad.). Madrid: Alianza.

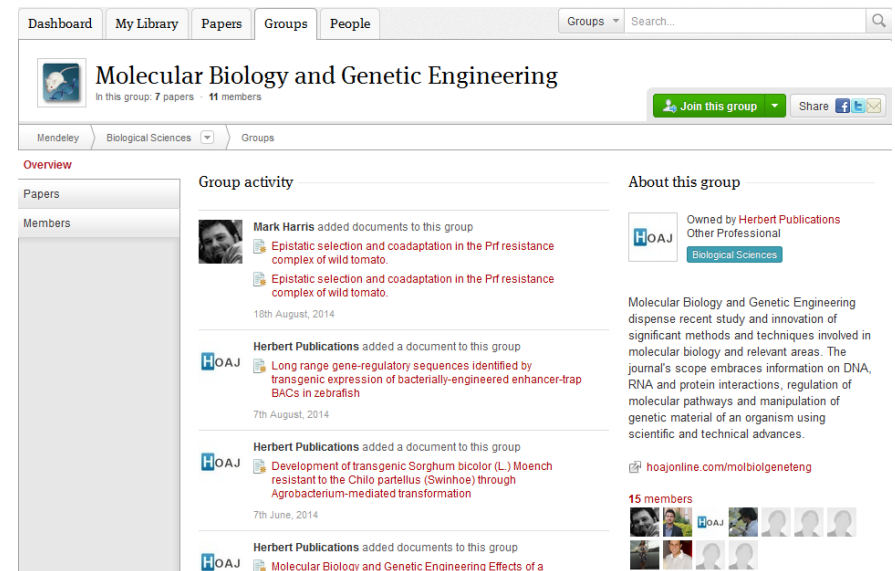

# Què es pot fer amb un gestor?

- Importar referències externes de diferents fonts: bases de dades en línia, catàlegs de biblioteques, arxius ...
- Organitzar i gestionar les referències bibliogràfiques.
- Exportar les referències externes.
- Organitzar i gestionar la bibliografia.
- Crear i redissenyar la bibliografia en nombrosos formats internacionals.
- Inserir citacions i bibliografia mentre s'està escrivint un article.
- Compartir amb altres usuaris les referències bibliogràfiques i la bibliografia.

# Què és Mendeley?

Mendeley és un **gestor de referències bibliogràfiques** que et permet gestionar, compartir, llegir, anotar i citar els teus treballs de recerca....

...i una **xarxa social acadèmica** que et permet connectar amb altres investigadors, descobrir tendències de recerca i conèixer estadístiques sobre els autors més llegits.

# Com accedir-hi?

- Programa que pots instal·lar en múltiples ordinadors (Versió Desktop)

- Funciona amb qualsevol sistema operatiu

Mac

Windows

Linux

- Accés des de la web [mendeley.com](http://mendeley.com)

- Accés a través de dispositius mòbils

>> [iPhone/ iPad](#)

>> [Android](#)

Cal sincronitzar la versió **Desktop** i la versió **Web**

# Què us ofereix Mendeley?

- Un espai on hi ha agrupades totes les referències: **My Library** (Biblioteca personal).
- Importar documents a **My Library** (Biblioteca personal) amb el Web Importer, des d'un fitxer, des de RefWorks o EndNote, des dels resultats d'una cerca de bases de dades i manualment.
- Organitzar **My Library** (Biblioteca personal): afegir etiquetes i crear carpetes.
- Grups públics i privats: compartir la recerca, crear grups, compartir documents, treball col·laboratiu en la revisió d'articles científics o seguir grups.
- Incloure citacions a documents Word i generar bibliografies.
- Espai de perfil personal on incloure el currículum vitae, publicacions, afiliació, etc.

# Accés institucional a Mendeley

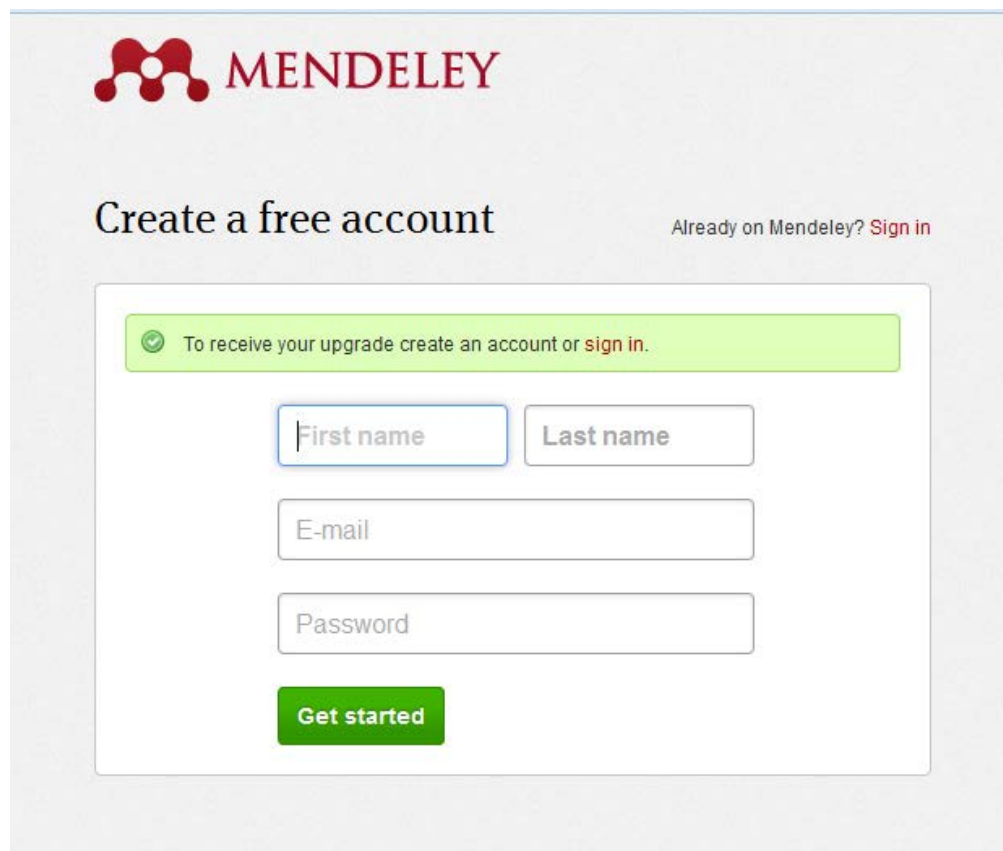

La Universitat de Vic – Universitat Central de Catalunya disposa d'un accés institucional -MENDELEY INSTITUTIONAL EDITION- per als membres de la comunitat universitària que us permetrà gaudir d'uns avantatges especials.

- ✓ Espai d'emmagatzematge de la biblioteca personal fins a **5GB**
- ✓ Espai d'emmagatzematge per a **grups d'investigació** fins a **20GB**
- ✓ Grups privats de fins a **25 persones** a cada grup
- ✓ Número de **grups privats** fins a **1000**
- ✓ Rebre recomanacions d'articles a partir de la vostra biblioteca personal amb **Mendeley Suggest** (versió Desktop)
- ✓ Des de l'opció **Papers** enllaç al text complet via CERCATOT (*Find this paper at*)

# Accediu a MENDELEY i obriu un compte

<http://www.mendeley.com/>

## ALERTA!

Per gaudir dels avantatges heu de crear el compte amb l'adreça institucional i afegir-vos al grup:

[Universitat de Vic - Universitat Central de Catalunya](#)

Universitat de Vic - Universitat Central de Catalunya

In this group: 26 members

[Join this group](#)

The screenshot shows the Mendeley website interface. At the top left is the Mendeley logo. The top right shows a user profile for 'Alba Comasolivas' with a 'My Account' dropdown menu containing options like 'Edit my profile', 'Account details', 'Privacy', 'Notifications', 'Billing', and 'Logout'. Below the navigation bar, there is a prominent green button with a downward arrow that says 'Download Mendeley Desktop' and 'for Windows XP or later'. Below this, there is a link 'Need a different version?'. The main content area is titled 'How to install Mendeley' and contains three numbered steps:

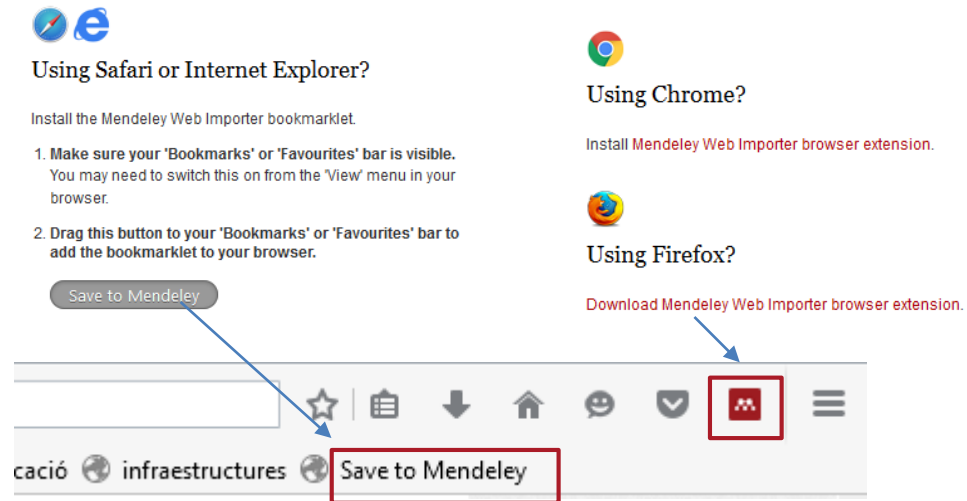

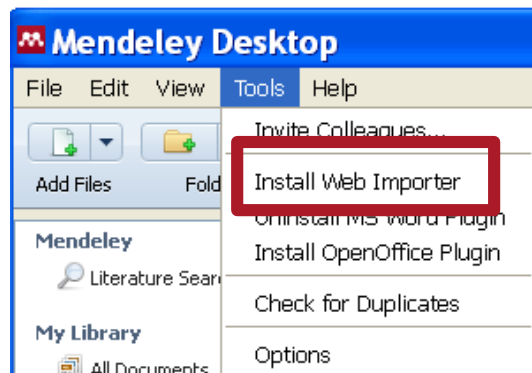

- 1. Download Mendeley Desktop**: A screenshot of a Windows 'Downloads' folder showing a file named 'Mendeley-Desktop' (23.2 MB) from 'mendeley.com'. Below the screenshot, the text reads: 'Click the Mendeley file in the Downloads window.'
- 2. Install Mendeley Desktop**: A screenshot of a Windows 'Open File - Security Warning' dialog box asking 'Do you want to run this file?'. The file name is '...wnloads\Mendeley-Desktop.exe', publisher is 'Mendeley Ltd', and type is 'Application'. Below the screenshot, the text reads: 'Double-click the Mendeley Desktop icon and click run.'
- 3. Open Mendeley Desktop**: A screenshot of the Mendeley Desktop application window showing the Mendeley logo and the text 'MendeleyDesktop'. Below the screenshot, the text reads: 'Open Mendeley and sign in with your e-mail and password.'

At the bottom of the screenshot, the text 'Getting started with Mendeley Desktop' is visible.

Ara ja podeu descarregar i instal·lar l'aplicació en el vostre ordinador

# Abans de començar a treballar amb MENDELEY instal·leu

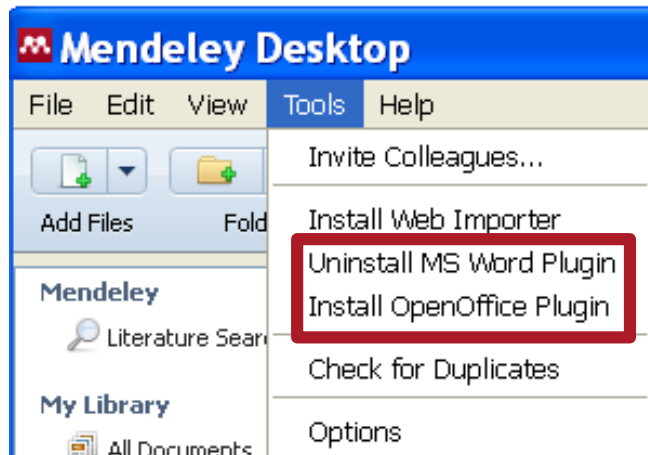

## 1. *Web Importer (SAVE TO MENDELEY)*

Segons el navegador que utilitzeu instal·leu el programa (Chrome o Firefox) o arrossegueu la icona "Save to Mendely" cap a la barra de *Preferits* o *Marcadors* (Explorer o Safari).

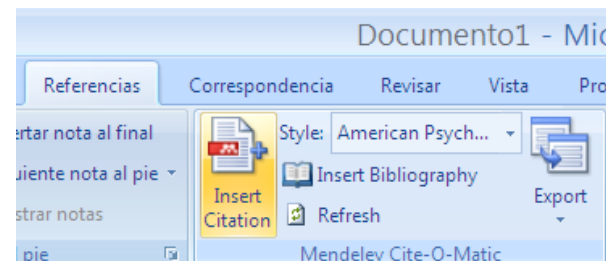

# Abans de començar a treballar amb MENDELEY instal·leu

## 2. MS Word Plugin o Open Office Plugin

Per instal·lar aquest plugin cal tenir el programa Word o l'Open Office tancat.

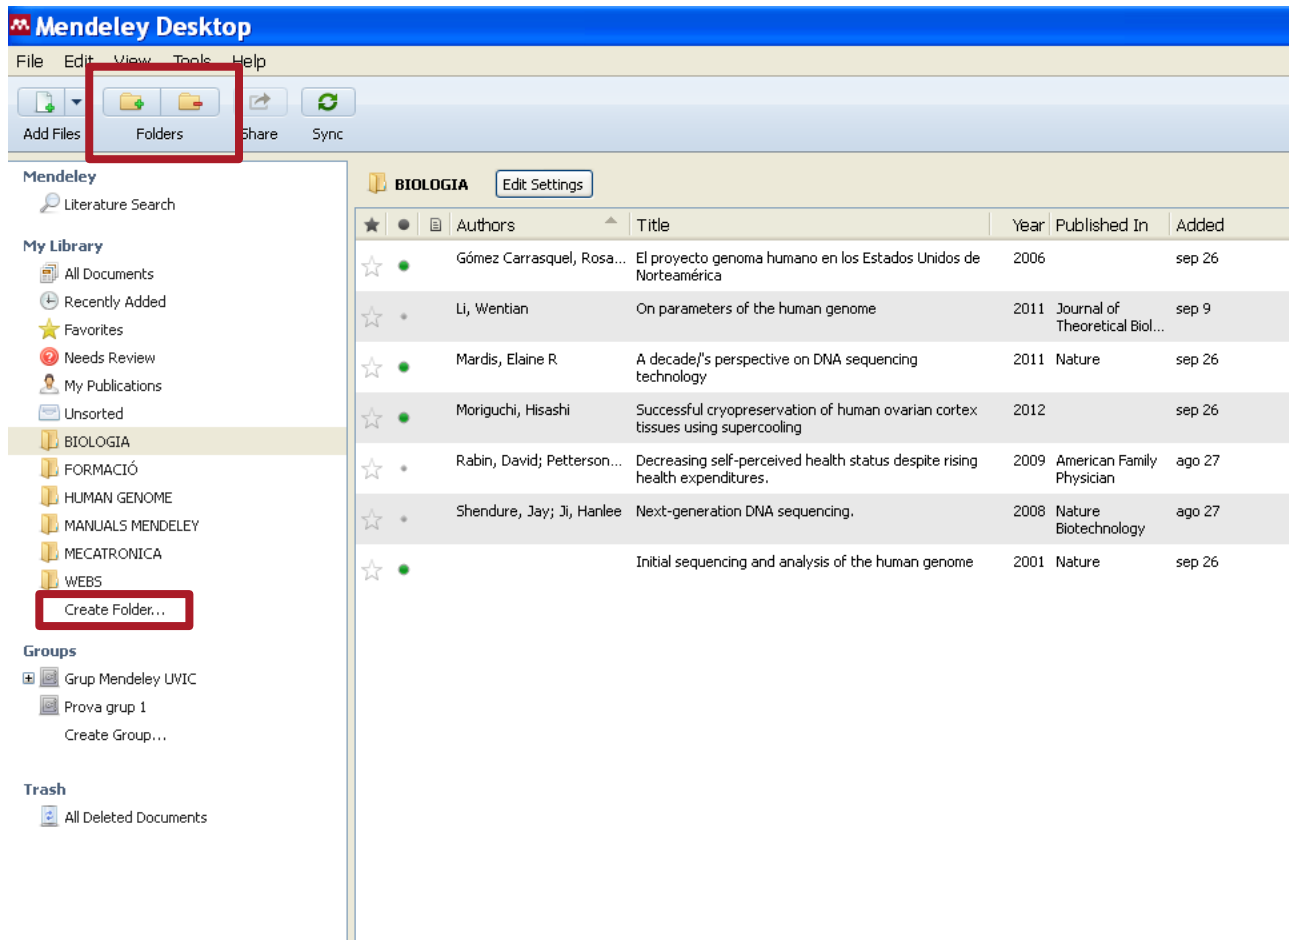

Per comprovar si s'ha instal·lat correctament, obriu un document word i al menú "Referencias" visualitzareu aquesta icona.

# MENDELEY DESKTOP

# ORGANITZAR MY LIBRARY

## Crear carpetes i subcarpetes

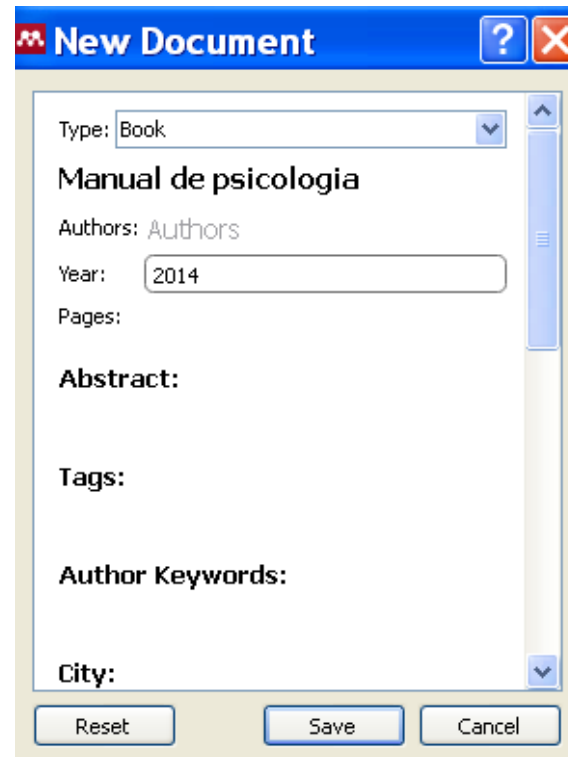

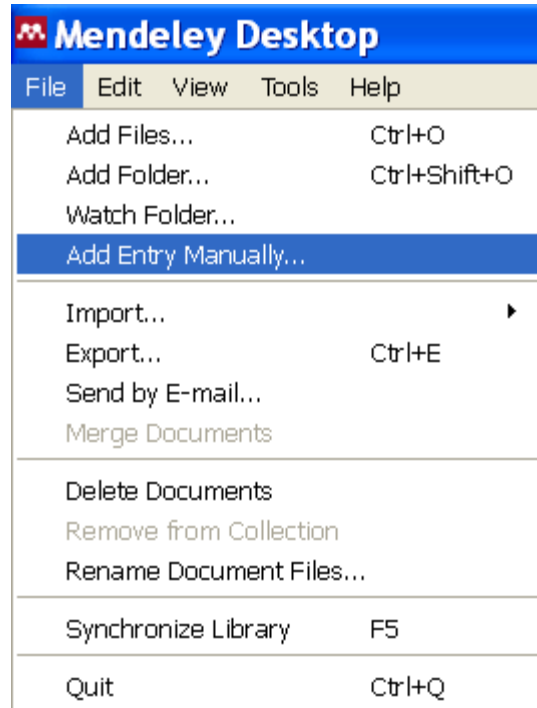

The screenshot shows the Mendeley Desktop application interface. The top menu bar includes File, Edit, View, Tools, and Help. Below the menu bar, there are buttons for Add Files, Folders (highlighted with a red box), Share, and Sync. The left sidebar contains a navigation pane with sections: Mendeley (Literature Search), My Library (All Documents, Recently Added, Favorites, Needs Review, My Publications, Unsorted), BIOLOGIA (highlighted), FORMACIÓ, HUMAN GENOME, MANUALS MENDELEY, MECATRONICA, WEBS, and a red box around the 'Create Folder...' option. Below this are Groups (Grup Mendeley UVIC, Prova grup 1, Create Group...) and Trash (All Deleted Documents).

The main pane displays a list of publications under the 'BIOLOGIA' folder. The list has columns for Authors, Title, Year, Published In, and Added. The publications are:

★	●	📄	Authors	Title	Year	Published In	Added
☆	●		Gómez Carrasquel, Rosa...	El proyecto genoma humano en los Estados Unidos de Norteamérica	2006		sep 26
☆	●		Li, Wentian	On parameters of the human genome	2011	Journal of Theoretical Biol...	sep 9
☆	●		Mardis, Elaine R	A decade's perspective on DNA sequencing technology	2011	Nature	sep 26
☆	●		Moriguchi, Hisashi	Successful cryopreservation of human ovarian cortex tissues using supercooling	2012		sep 26
☆	●		Rabin, David; Petterson...	Decreasing self-perceived health status despite rising health expenditures.	2009	American Family Physician	ago 27
☆	●		Shendure, Jay; Ji, Hanlee	Next-generation DNA sequencing.	2008	Nature Biotechnology	ago 27
☆	●			Initial sequencing and analysis of the human genome	2001	Nature	sep 26

# AFEGIR REFERÈNCIES

## 1. Manualment

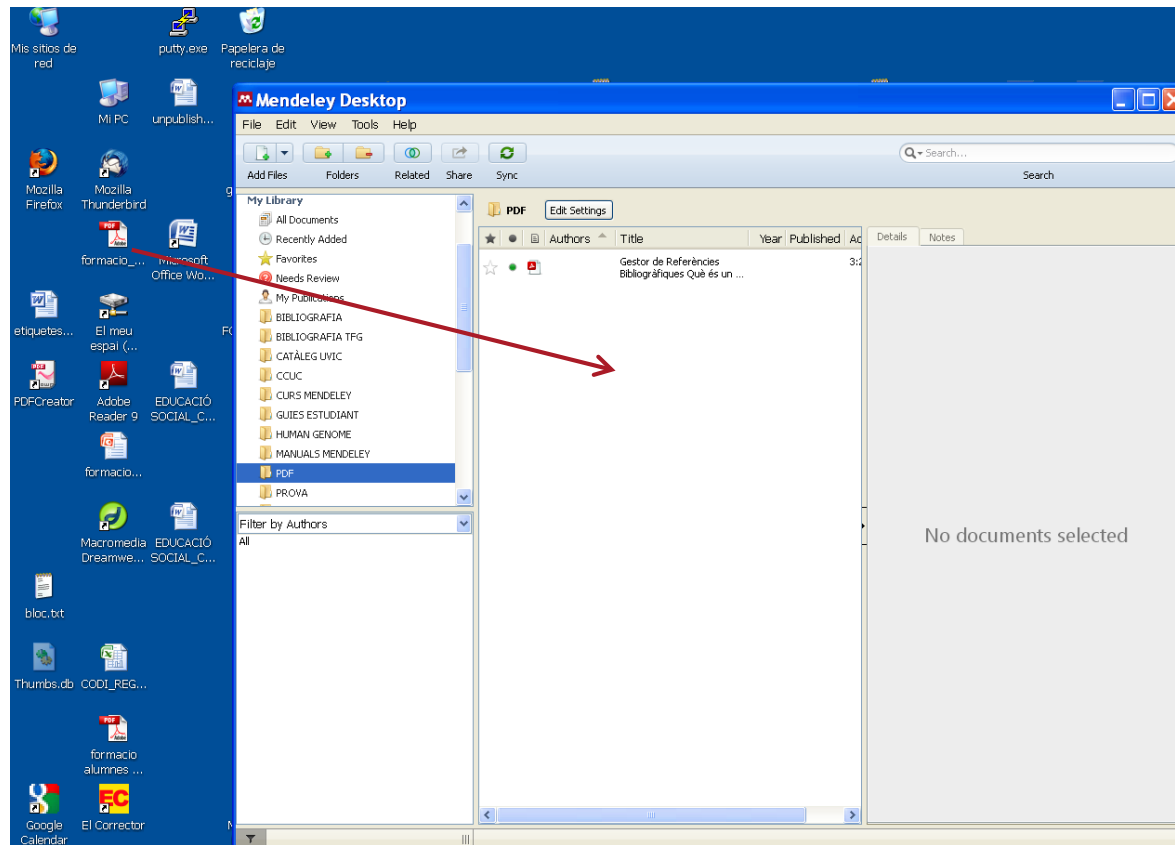

Des d'aquesta finestra podeu entrar la tipologia del document i les dades bibliogràfiques.

# AFEGIR REFERÈNCIES

## 2. Afegir directament documents PDF

**Opció A** - Arrossegar un o diversos fitxers des de l'escriptori cap a la part central del Mendeley Desktop.

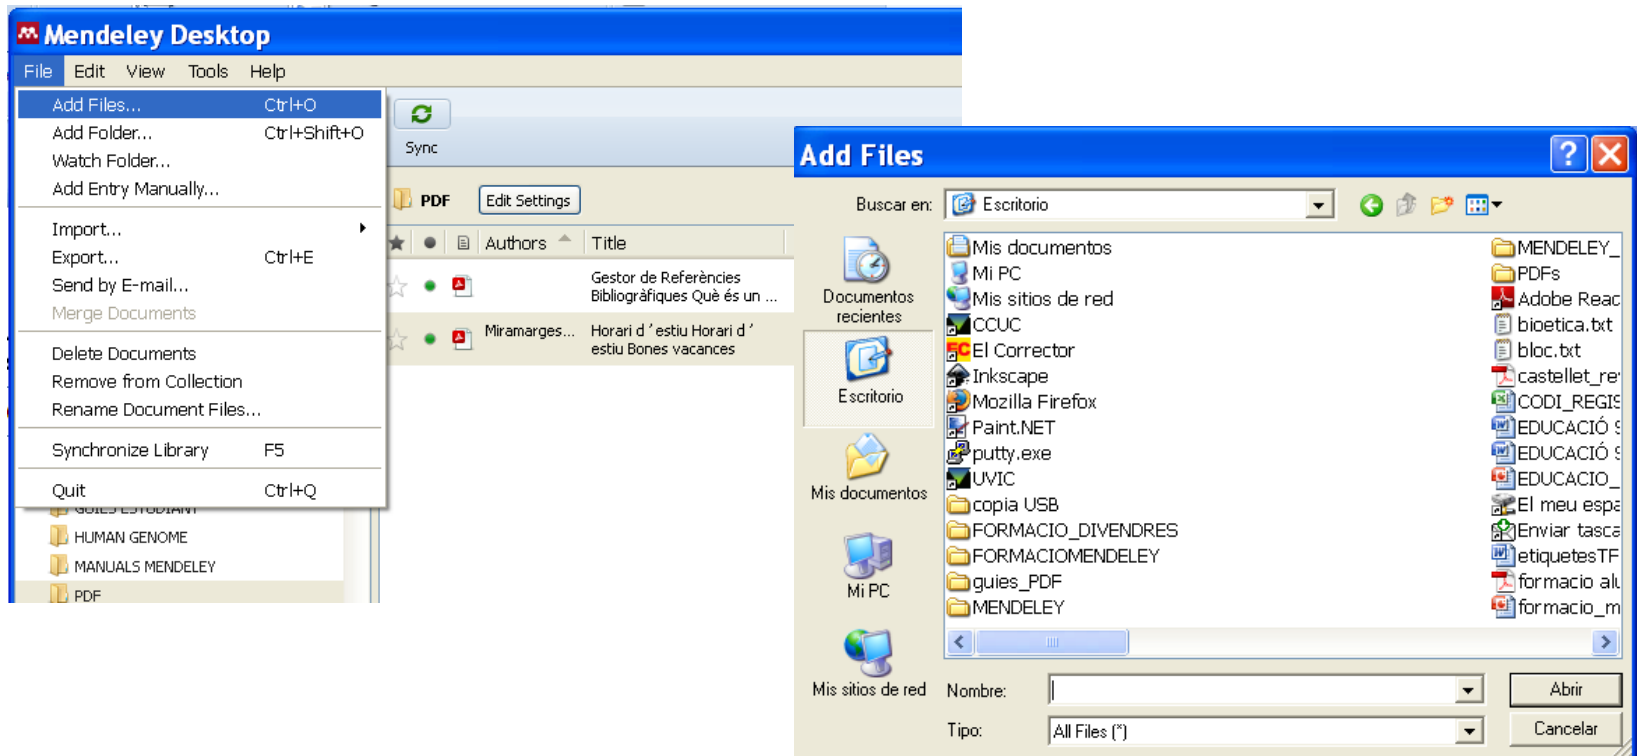

# AFEGIR REFERÈNCIES

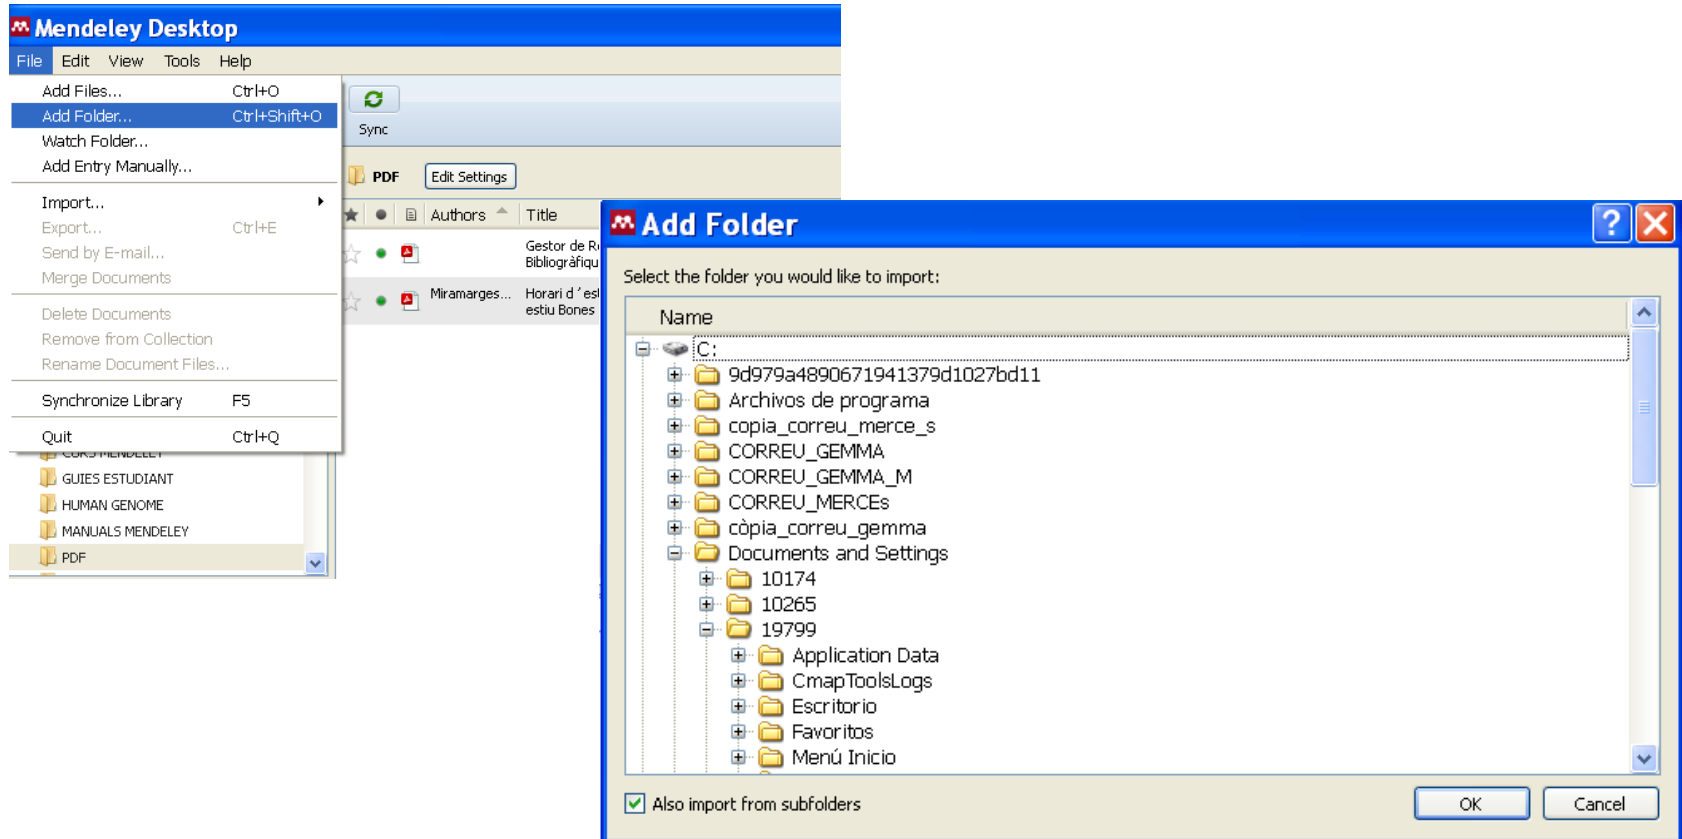

## 3. Afegir directament documents PDF

**Opció B** - Seleccionar els fitxers des de l'opció "Add files".

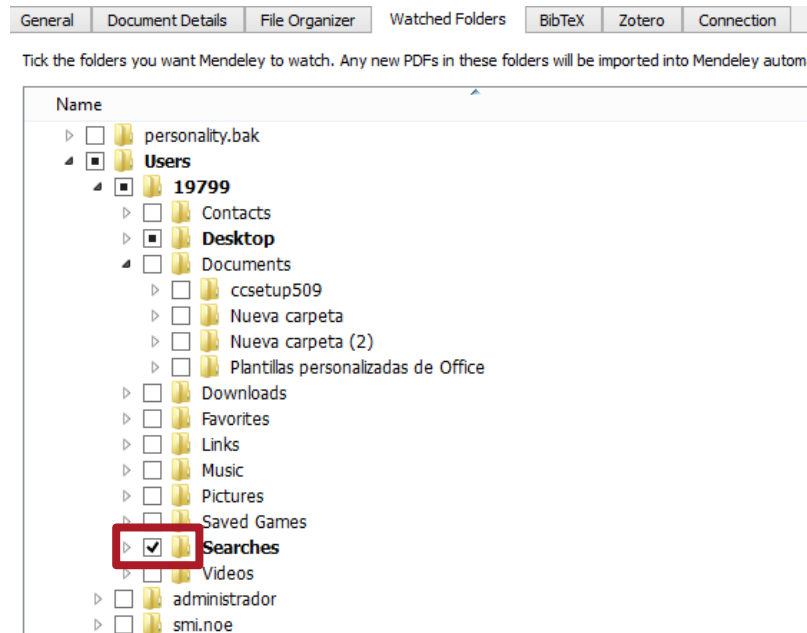

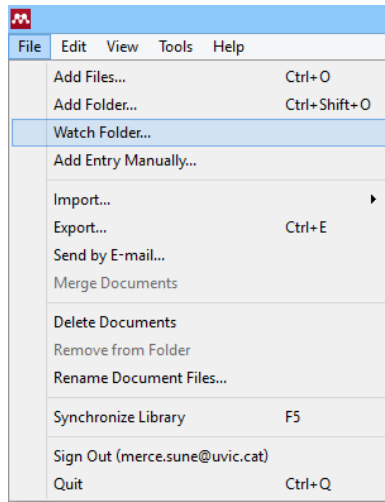

# AFEGIR REFERÈNCIES

## 4. Afegir carpeta/es amb tots els PDFs

# AFEGIR REFERÈNCIES

## 5. Watch Folder - Selecciona la carpeta que vols que Mendeley revisi. Qualsevol nou pdf incorporat en aquesta carpeta s'importarà automàticament a Mendeley.

# AFEGIR REFERÈNCIES

## 6. Importar resultats des de Bases de dades: Sciencedirect, Scopus, etc. (*Web importer*)

The screenshot shows a Scopus search results page. The browser address bar displays 'https://www.scopus.com/results/results.uri?numberOff'. The page includes a search bar, a 'Refine' section with filters for Year, Author Name, and Subject Area, and a list of search results. A 'Web Library' dialog box is overlaid on the page, showing a 'Save all' button and a 'Download PDFs if available' checkbox. An arrow points from the text on the right to the 'Web Library' icon in the top right corner of the browser window.

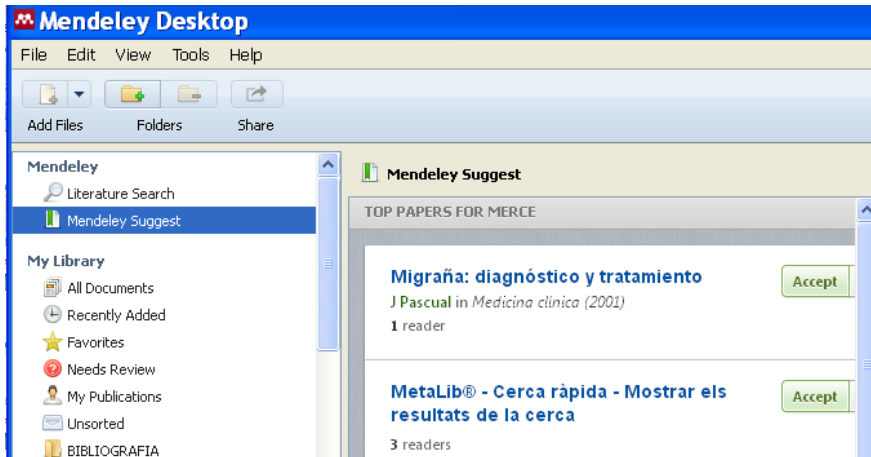

Des d'aquesta finestra podeu guardar una o diverses referències i arxivar-les a la carpeta que us interressi. També hi ha l'opció de guardar-les totes.

També podeu fer aquest procés amb el botó **Export**.

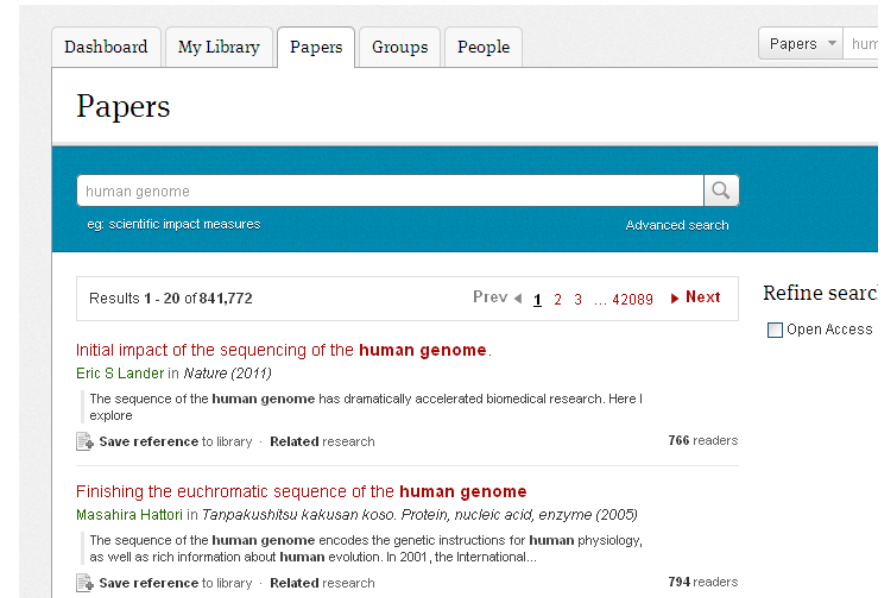

# AFEGIR REFERÈNCIES

## 7. Afegir referències des del propi contingut de Mendeley

Opció A – Des del Mendeley Desktop

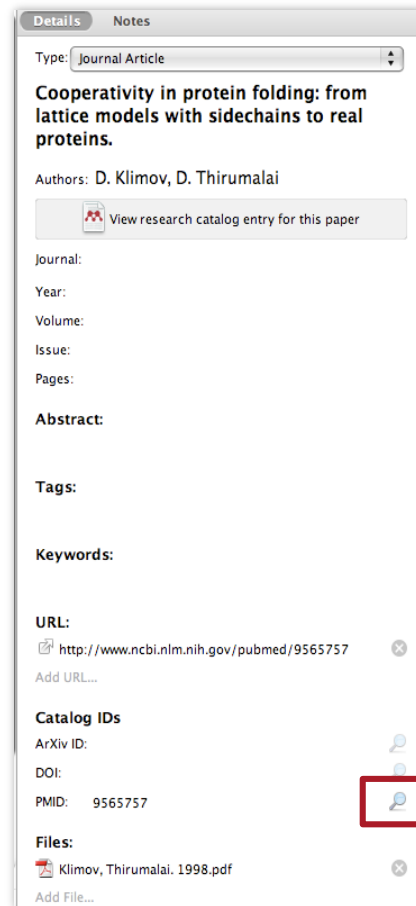

Opció B – Des del Mendeley Web

# REVISAR REFERÈNCIES

## Lookup

Si la referència importada disposa de DOI, PubMed o ArXiv ID clicant la “lupa” Mendeley afegeix automàticament la informació que falta.

Details Notes

Journal: *Folding & design*

Year: 1998

Volume: 3

Issue: 2

Pages: 127-39

**Abstract:**  
Over the past few years novel folding mechanisms of globular proteins have been proposed using minimal lattice and off-lattice models. The factors determining the cooperativity of folding in these models and especially their explicit relation to experiments have not been fully established, however.

A green checkmark icon and the text "Lookup Succeeded" are highlighted with a red box.

# REVISAR REFERÈNCIES

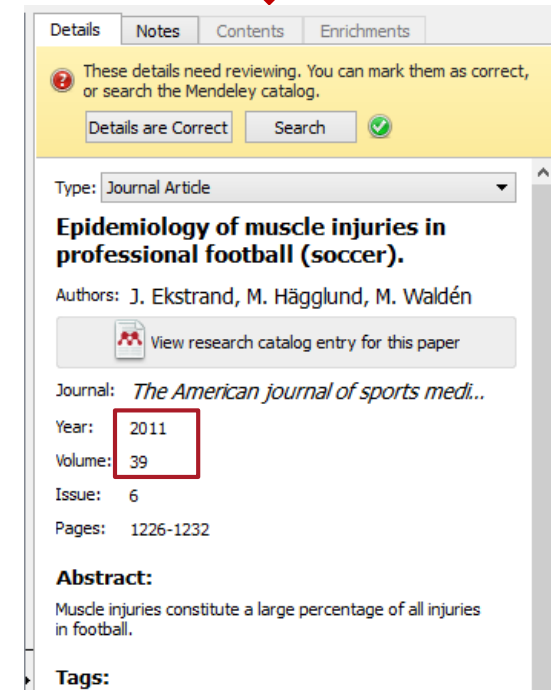

## Needs Review

Si Mendeley detecta que les dades bibliogràfiques són incompletes afegeix la referència a la carpeta **Needs Review** per a una verificació manual de les dades.

Mendeley buscarà els documents al Mendeley Catalog i si hi són completerà les dades.

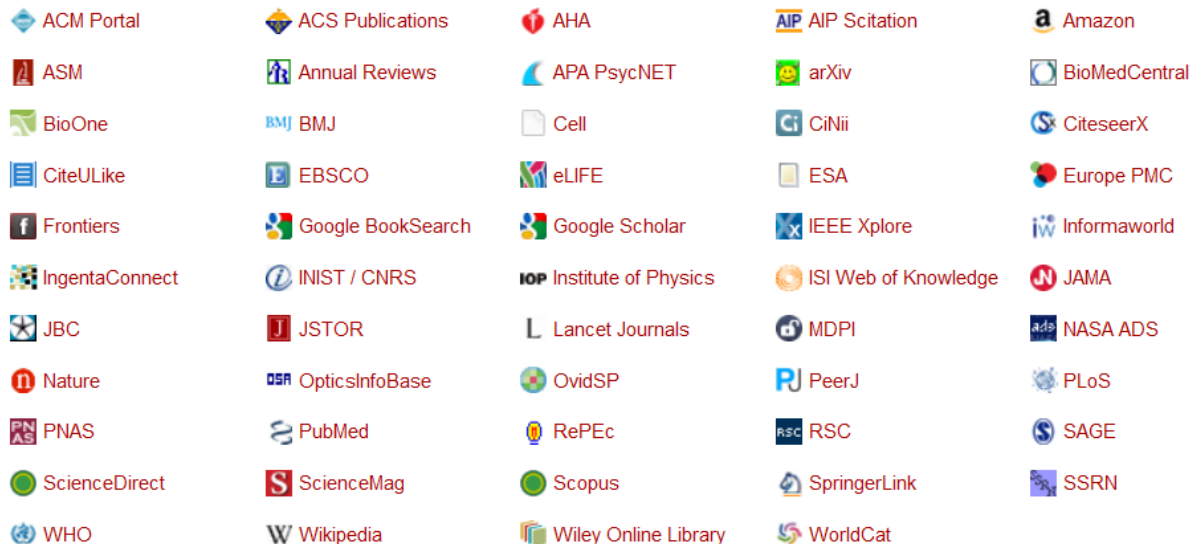

# La qualitat de les referències importades dependrà de la qualitat de les metadades del recurs

*Un llistat amb les principals bases de dades que importen correctament des del Save to Mendeley és:*

## Supported sites

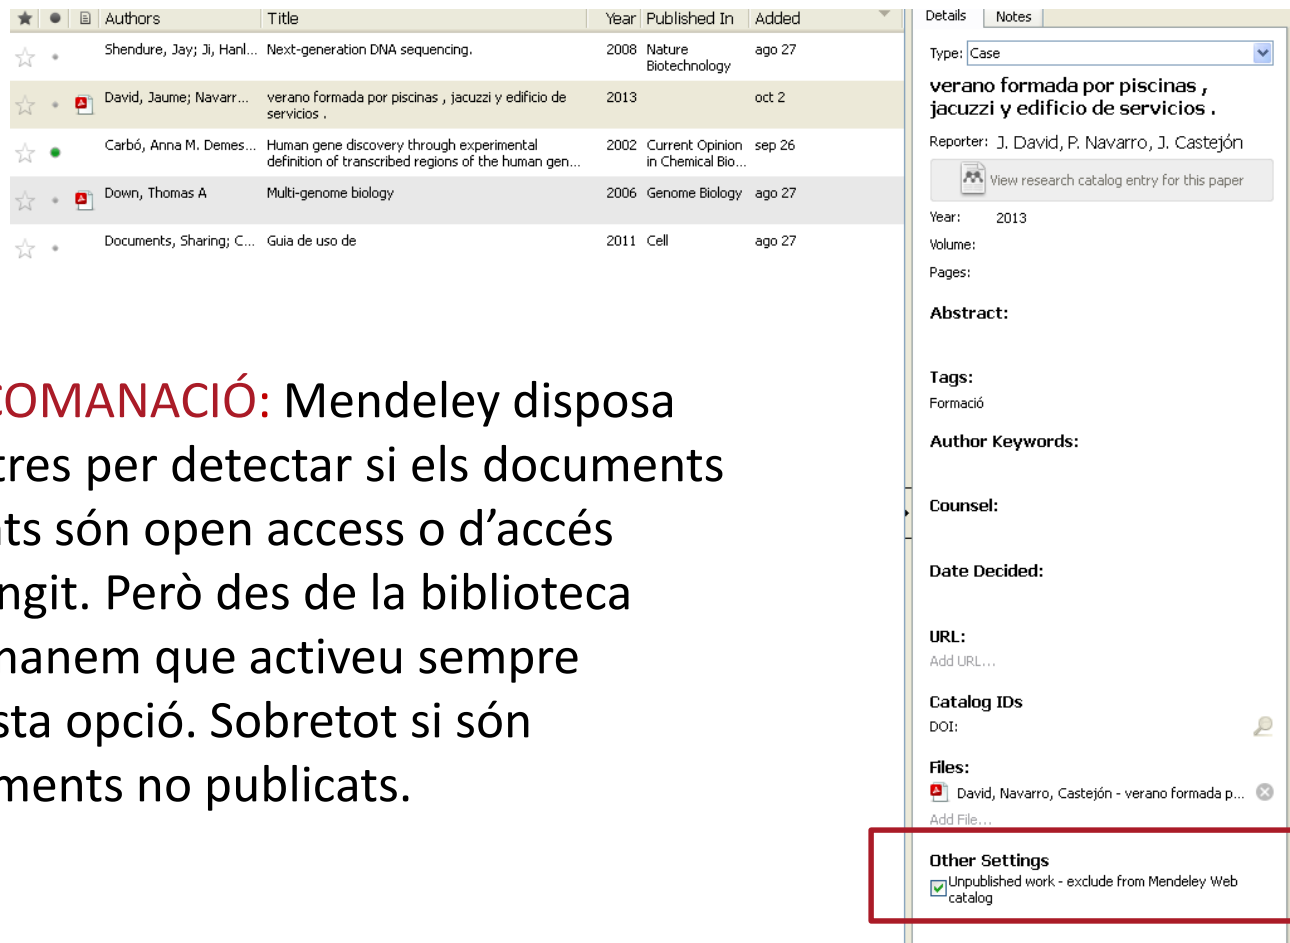

In addition to these sites, we also support importing metadata from COinS and metatags. If you wish to add Mendeley Web Importer support for your site, please refer to the [information for publishers guide](#)

# OTHER SETTINGS – UNPUBLISHED WORK

Marcar aquesta opció exclou del catàleg públic de Mendeley la referència i, si és el cas, el document adjunt associat.

The screenshot displays the Mendeley Desktop interface. On the left, a table lists references with columns for Authors, Title, Year, Published In, and Added. The second entry is selected: David, Jaume; Navarr... verano formada por piscinas , jacuzzi y edificio de servicios . On the right, the 'Details' panel for this entry is shown, including fields for Type, Reporter, Year, Volume, Pages, Abstract, Tags, Author Keywords, Counsel, Date Decided, URL, Catalog IDs, and Files. A red box highlights the 'Other Settings' section at the bottom of the details panel, which contains a checked checkbox for 'Unpublished work - exclude from Mendeley Web catalog'.

Authors	Title	Year	Published In	Added
Shendure, Jay; Ji, Han...	Next-generation DNA sequencing.	2008	Nature Biotechnology	ago 27
David, Jaume; Navarr...	verano formada por piscinas , jacuzzi y edificio de servicios .	2013		oct 2
Carbó, Anna M. Demes...	Human gene discovery through experimental definition of transcribed regions of the human gen...	2002	Current Opinion in Chemical Bio...	sep 26
Down, Thomas A	Multi-genome biology	2006	Genome Biology	ago 27
Documents, Sharing; C...	Guia de uso de	2011	Cell	ago 27

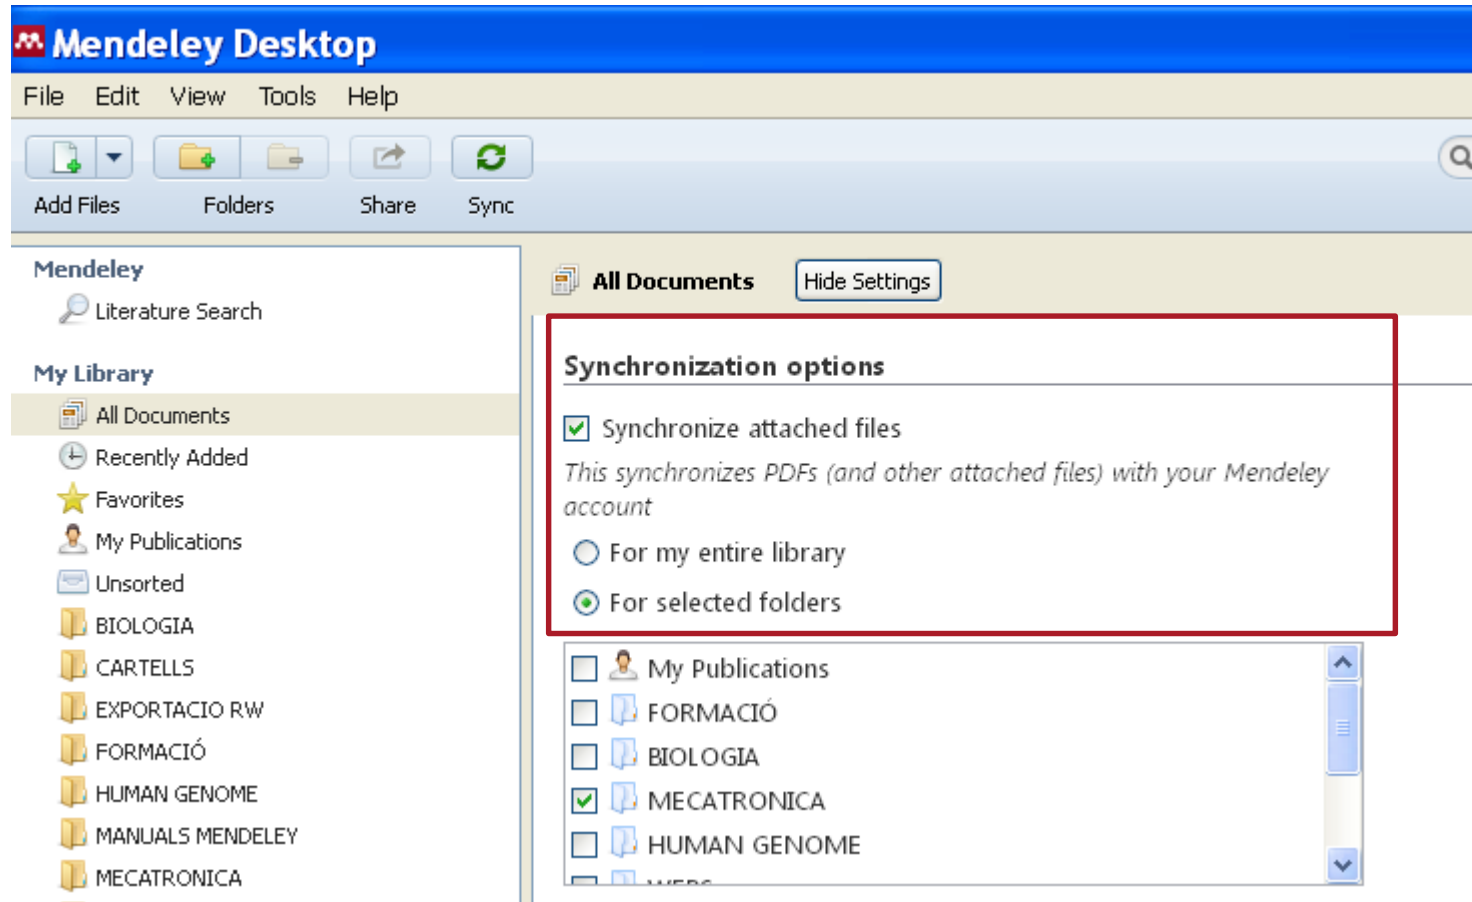

**Other Settings**

- Unpublished work - exclude from Mendeley Web catalog

\* **RECOMANACIÓ:** Mendeley disposa de filtres per detectar si els documents adjunts són open access o d'accés restringit. Però des de la biblioteca recomanem que activeu sempre aquesta opció. Sobretot si són documents no publicats.

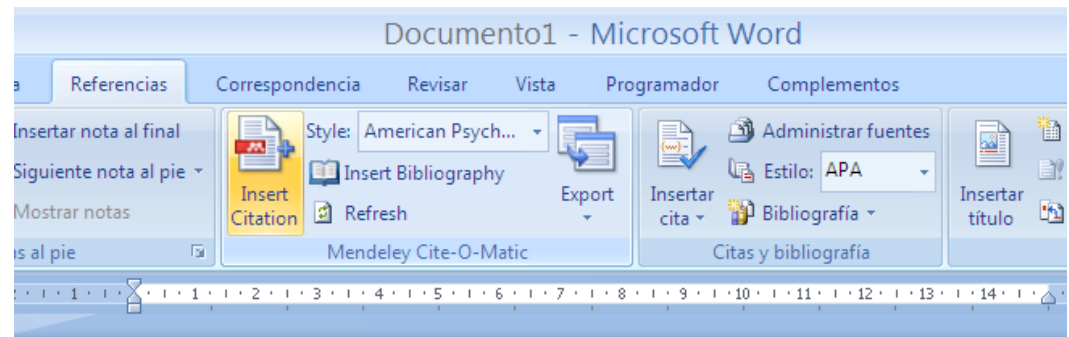

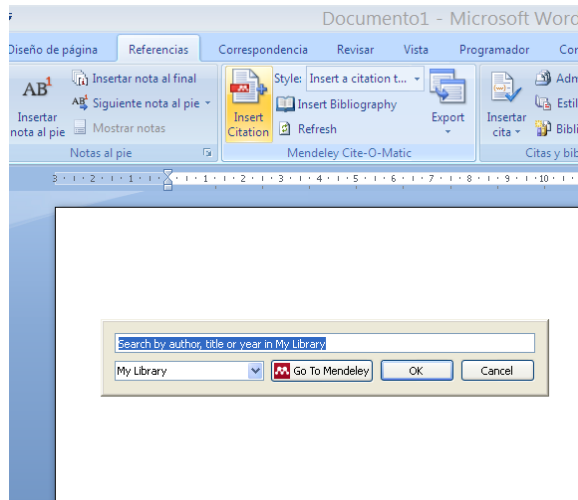

# Settings – Synchronization options

Marcar aquesta opció permet visualitzar els documents adjunts des de la versió web quan accediu al vostre compte.

# INSERIR CITACIONES

Cliqueu **Insert Citation**. Apareixerà un cercador per buscar les referències que necessiteu per autor, títol o any a la vostra biblioteca, o visualitzeu la vostra biblioteca per seleccionar les referències que voleu citar. Cliqueu OK per inserir la citació. Apareixerà allà on teníeu el cursor. Podeu canviar l'estil de citació des del desplegable **Style**.

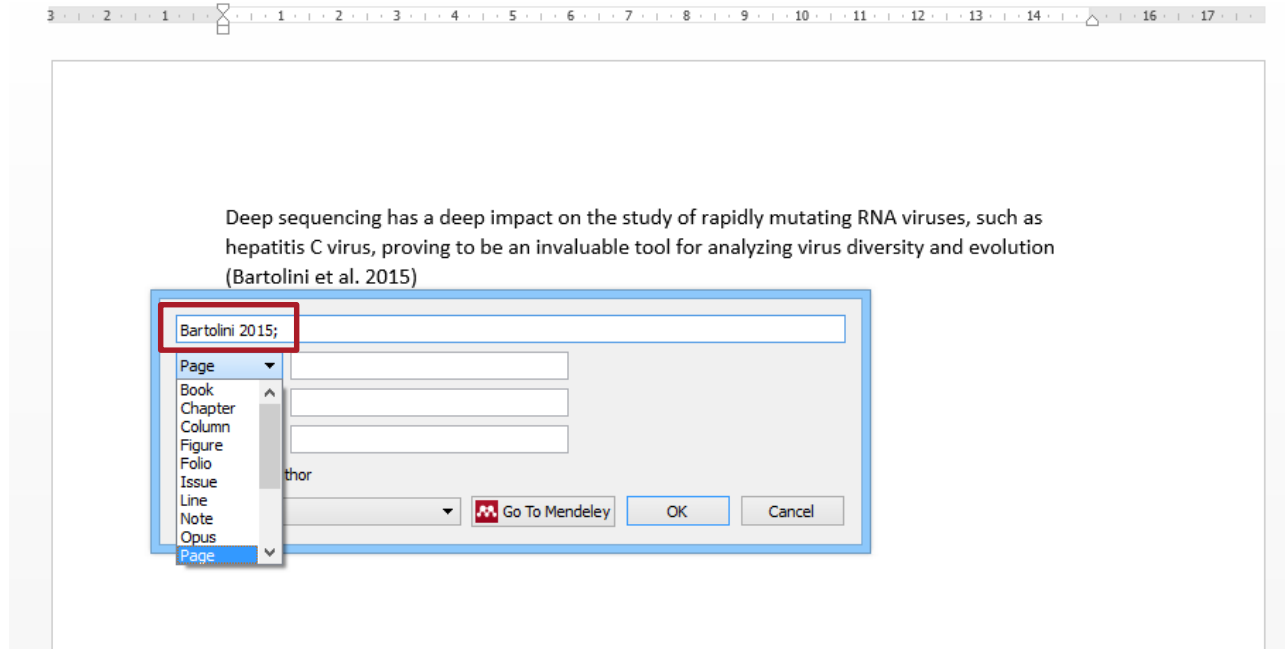

The core problem for most workers in comparative genomics remains the identification of sequences (Down, 2006)

# EDITAR CITACIONES

1. Seleccioneu la citació en el document i cliqueu la icona

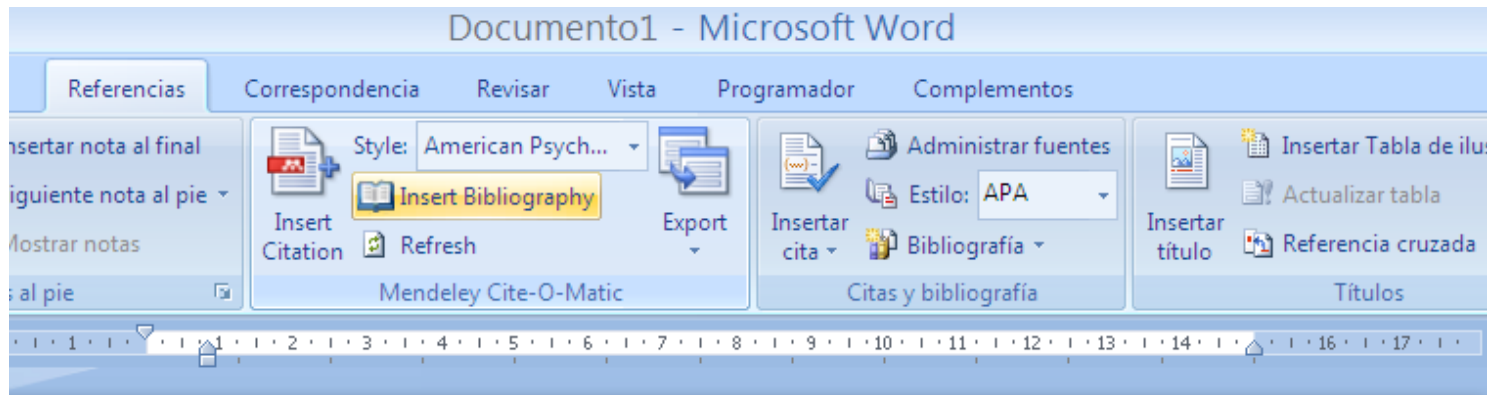

2. S'obrirà aquesta finestra. Cliqueu la citació i s'obrirà un desplegable que permet inserir a la citació el número de pàgina, capítol, notes...

# CREAR BIBLIOGRAFIA

Un cop tingueu com a mínim una citació inserida al vostre text, seleccioneu **Insert Bibliography** per generar la bibliografia. Si elimineu o modifiqueu citacions en el vostre text, feu servir l'opció **Refresh** per actualitzar la bibliografia.

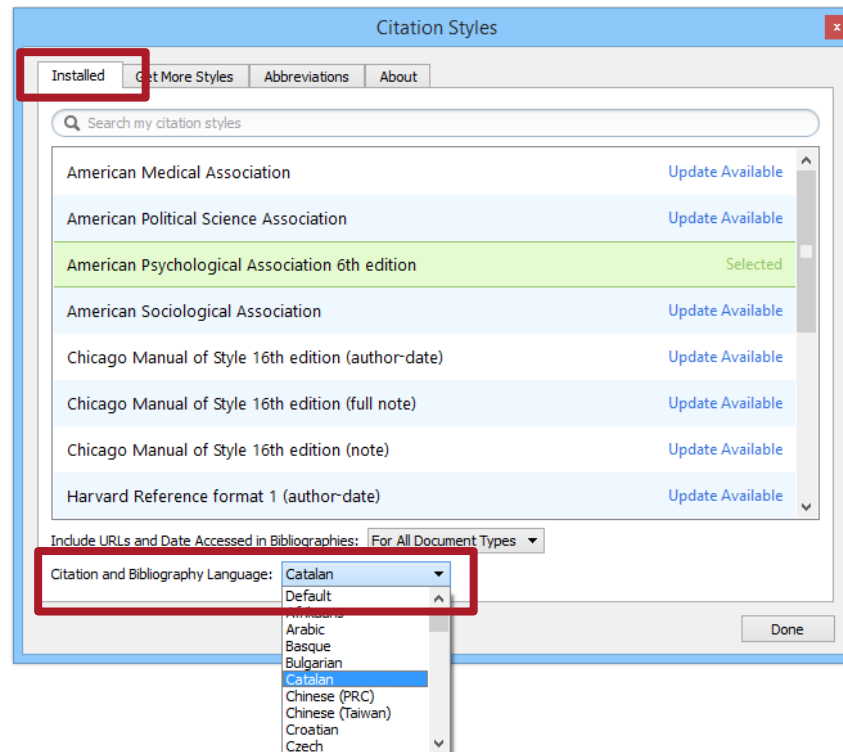

The core problem for most workers in comparative genomics remains the identification of sequences (Down, 2006)

Down, T. A. (2006). Multi-genome biology. *Genome Biology*. doi:10.1186/gb-2006-7-2-305

# CREAR BIBLIOGRAFIA

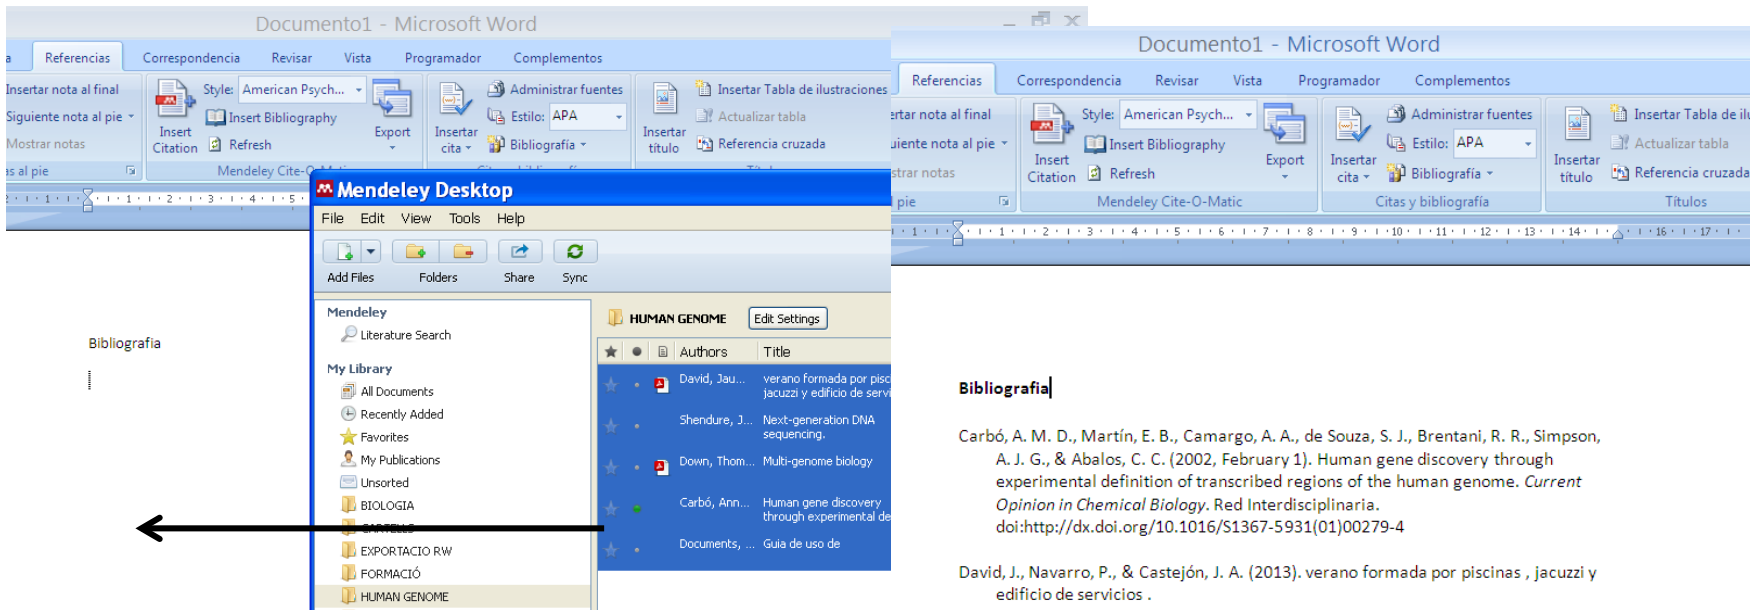

Per defecte la bibliografia es genera en anglès però hi ha l'opció de combinar estil de citació amb llengua. Si trieu un estil (per exemple APA, per defecte en anglès) podeu escollir que generi la bibliografia en una altra llengua (ex: *Recuperat de:* enlloc de *Retrieved from*).

***Desktop > View > Citation Style > More Styles***

# CREAR BIBLIOGRAFIA

També podeu crear la bibliografia seleccionant i arrossegant directament les referències des del Mendeley Desktop cap al document word.

The image shows two overlapping windows. The background window is Microsoft Word, displaying the 'Referencias' (References) ribbon with options like 'Insert Bibliography' and 'Estilo: APA'. The foreground window is Mendeley Desktop, showing a list of references under the 'HUMAN GENOME' collection. A black arrow points from the 'Documents, ... Guia de uso de' entry in Mendeley Desktop to the 'Bibliografia' section in the Word document.

# CREAR GRUPS PER COMPARTIR DOCUMENTS I REFERÈNCIES

# TIPUS DE GRUPS: públics i privats

## Privacy settings

Public Group

(share references only)

Private Group

(share references + full-text files)

**Open**

Public can contribute; good for crowd-sourcing reading lists

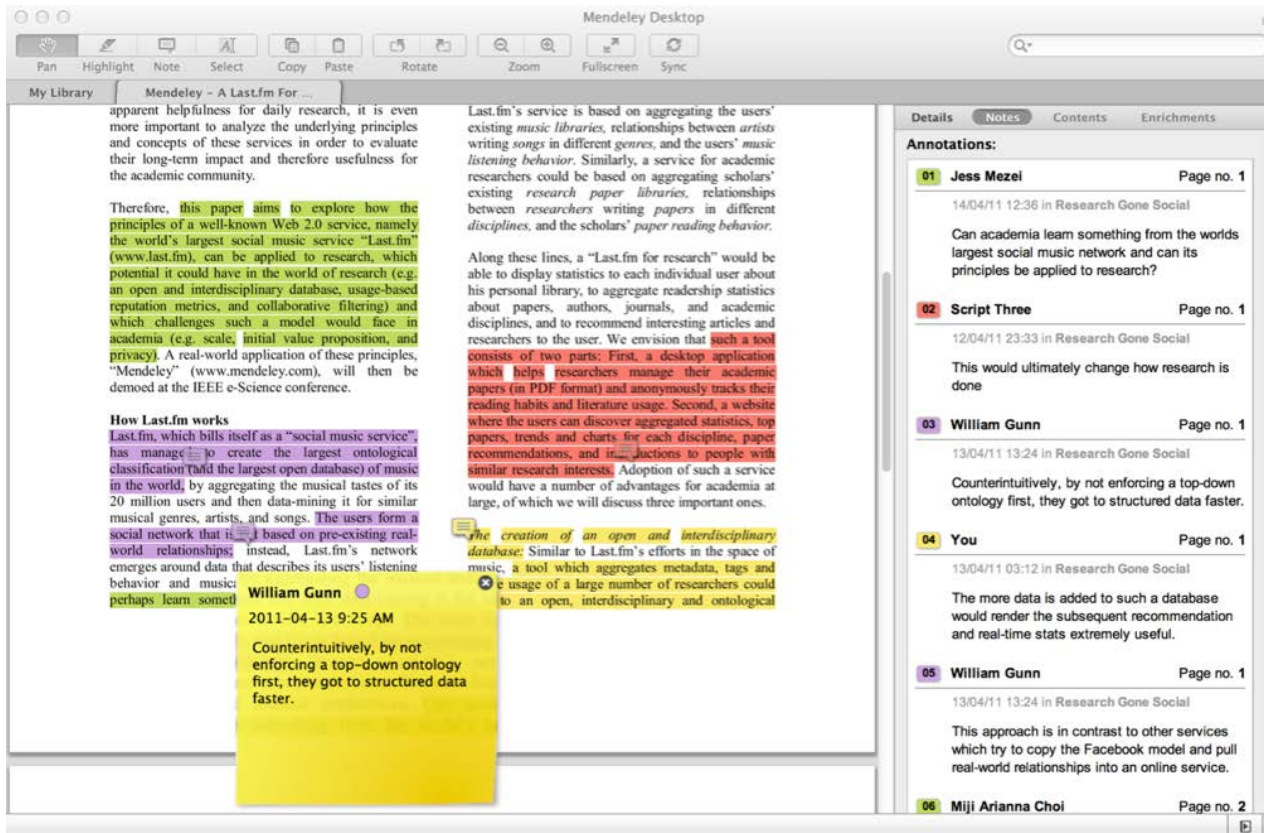

**Invite-only**

Public can follow only; good for sharing references or reading lists

**ALERTA:** La configuració dels grups, un cop creats, no es pot modificar. Per tant, no podem convertir un grup creat com a públic en privat o a la inversa.

# GRUPS PRIVATS

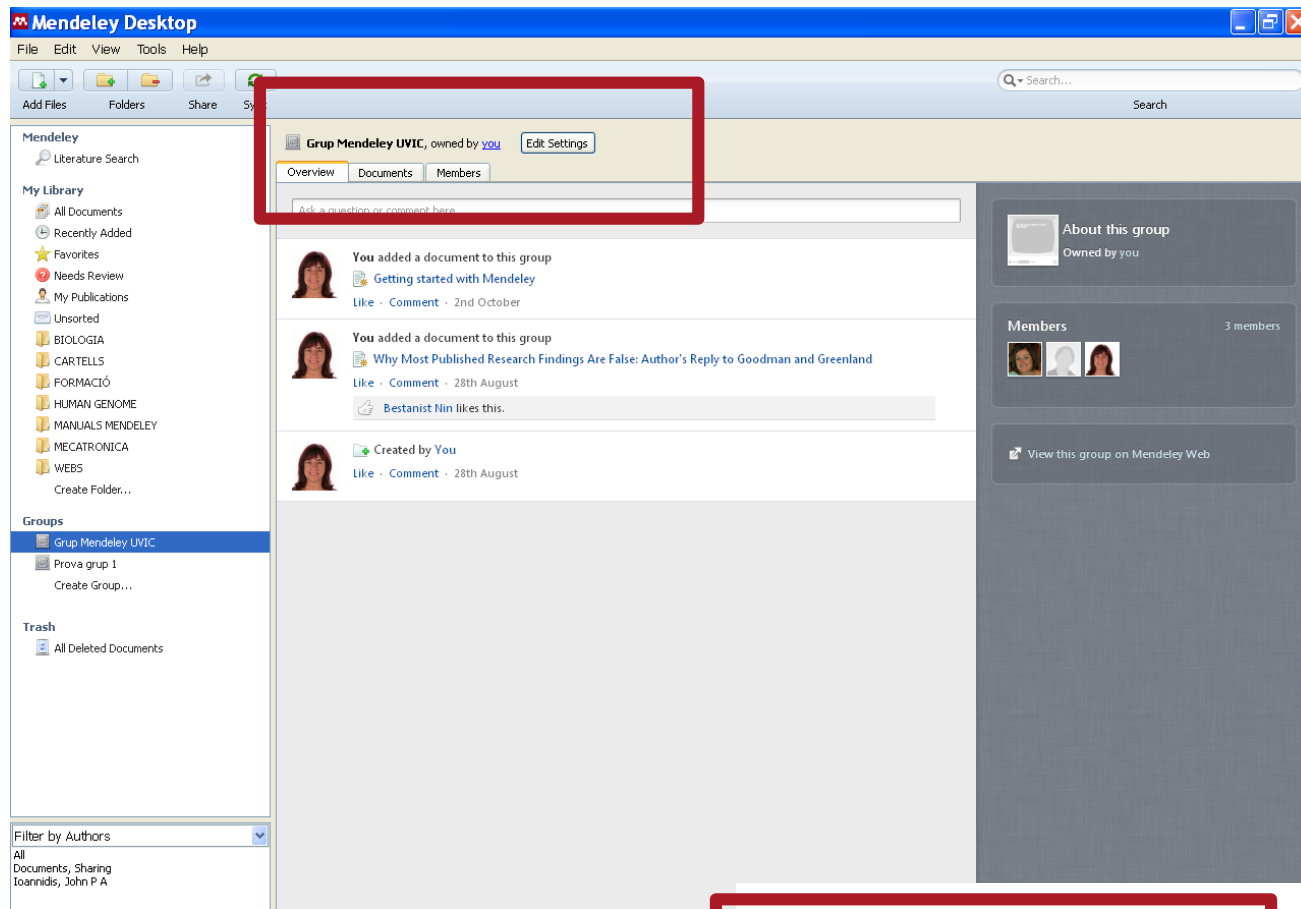

En grups privats es poden compartir documents a text complet, el text marcat i les anotacions. A cada membre del grup se li assigna un color diferent.

The screenshot shows the Mendeley Desktop application interface. The main window displays a document with several paragraphs of text. A yellow sticky note is attached to the text, containing an annotation by William Gunn. The sidebar on the right shows a list of annotations, each with a unique color and a timestamp. The annotations are:

- 01 Jess Mezel (Page no. 1): 14/04/11 12:36 in Research Gone Social. Annotation: Can academia learn something from the worlds largest social music network and can its principles be applied to research?
- 02 Script Three (Page no. 1): 12/04/11 23:33 in Research Gone Social. Annotation: This would ultimately change how research is done
- 03 William Gunn (Page no. 1): 13/04/11 13:24 in Research Gone Social. Annotation: Counterintuitively, by not enforcing a top-down ontology first, they got to structured data faster.
- 04 You (Page no. 1): 13/04/11 03:12 in Research Gone Social. Annotation: The more data is added to such a database would render the subsequent recommendation and real-time stats extremely useful.
- 05 William Gunn (Page no. 1): 13/04/11 13:24 in Research Gone Social. Annotation: This approach is in contrast to other services which try to copy the Facebook model and pull real-world relationships into an online service.
- 06 Miji Arianna Choi (Page no. 2): [No annotation text visible]

# GRUPS PRIVATS

File synchronization

Download attached files from group

# SINCRONITZAR

La funció **Sync** permet sincronitzar la vostra biblioteca amb totes les versions de Mendeley que tingueu instal·lades (Mendeley Desktop, Mendeley Web i dispositius mòbils).

Situeu-vos a la llista de tots els documents de la vostra biblioteca ("All Documents") i cliqueu el botó

**RECOMANACIÓ:** Sincronitzeu sempre abans de tancar la vostra sessió amb el Mendeley Desktop.

# MENDELEY WEB

## MENDELEY DESKTOP

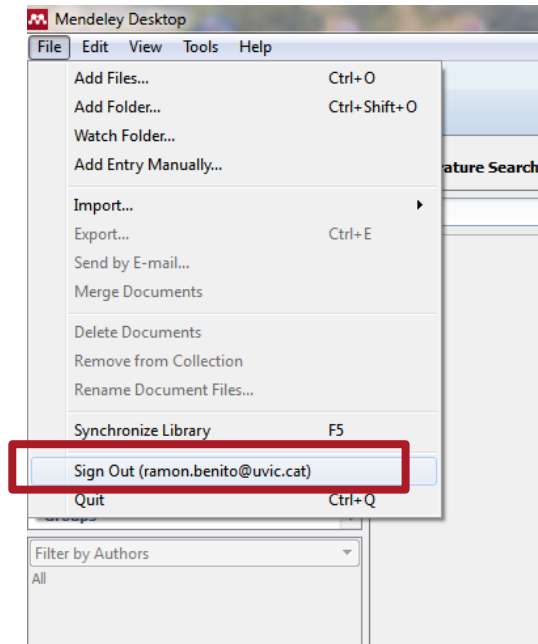

A screenshot of the Mendeley Desktop application. The interface includes a menu bar (File, Edit, View, Tools, Help), a toolbar with icons for Add Files, Folders, Share, and Sync, and a main window titled "All Documents" with a table of entries. A sidebar on the left shows "My Library" and "Groups". A black arrow points from the "Sync" icon in the toolbar to the "Sync" button in the desktop application's toolbar.

# Detectar referències o documents duplicats

# Etiquetar i editar diversos documents alhora

The screenshot shows the FORMACIÓ interface. At the top left, there is a logo and the text "FORMACIÓ" next to an "Edit Settings" button. Below this is a table of documents with columns for Authors, Title, Year, Published In, and Added. Four documents are listed, all of which are selected (indicated by a blue background). To the right of the table is a details panel with tabs for "Details" and "Notes". The "Details" tab is active, showing a yellow notification box that says "4 documents selected. Edits will affect all selected documents." Below this is a "Merge Documents" button. Further down, there are fields for "Type:" (set to "Generic"), "Title", "Authors:" (set to "Authors"), "Year:", "Pages:", "Abstract:", and "Tags:". The "Tags:" field is highlighted with a red box and contains the text "Formació".

A report on the Genome Informatics meeting held at Cold Spring Harbor Laboratory, Cold Spring Harbor, USA, 28 October-1 November 2005.

Halloween 2005 saw the fifth of the annual genome informatics meetings organized jointly by the Wellcome Trust and Cold Spring Harbor Laboratory. These meetings began in the rush of excitement surrounding the publication of the draft **human genome** sequence in 2001. Since then, bioinformaticians around the world have developed a wide range of high-throughput techniques and pipelines. With new methods and improved computer hardware in place. eiza-

ington University, St. Louis, USA) about techniques to automate the practice of using hand-finished clones of genomic sequence to evaluate whole-genome assemblies, including about a method called Semblance, which checks assembled shotgun sequence for consistency with finished clones.

There are many scientifically or commercially important organisms that have yet to be sequenced. Starting a new genome project often presents new challenges and demands new approaches: there has been significant interest in sequencing the maize genome (*Zea mays*), but its large size - due primarily to large repetitive regions - makes obtaining a whole genome sequence both challenging and costly. Brad

# Crear notes i marcar text en els PDFs

The screenshot displays a PDF viewer application with a menu bar (File, Edit, View, Go, Tools, Help) and a toolbar containing icons for Select, Pan, Note, Highlight, Color, Zoom, Fullscreen, Share, and Sync. The document content includes a title "Correspondence" and a main heading "No universal health coverage without primary health care". The text discusses the aspiration of universal health coverage and mentions Michael Reich and colleagues. A table of data is visible at the bottom of the page.

**Correspondence**

## No universal health coverage without primary health care

Universal health coverage is currently the aspiration of many countries worldwide. We commend Michael Reich and colleagues' for analysing lessons learned from different country experiences, but we believe there is a crucial element neglected within the ongoing universal health coverage debate.

Health-care system development requires more than financing and human resource considerations. Although essential, these components must be integrated into an overall framework for organising and

We declare no competing interests.

## Nasopharyngeal carcinoma.

[Brennan B](#)

**Orphanet journal of rare diseases**  
2006, vol: 1, pp: 23

Nasopharyngeal carcinoma (NPC) is a tumor arising from the epithelial cells that cover the surface and line the nasopharynx. The annual incidence of NPC in the UK is 0.3 per million at age 0-14 years, and 1 to 2 per million at age 15-19 years. Incidence is higher in the Chinese and Tunisian populations. Although rare, NPC accounts for about one thi...
